

# Working the Snookers Tables

## Definitions:

**Cash IN:** A player requests chips to buy.

**Cash OUT:** A player leaves cashing out his chips.

**Rake:** A rake is done every hour on the hour.

**Games:** This page entry is for the Blackjack Table.

**Chips:** Chips are Cars. Red chips are \$5, \$100 each row and \$600 a rack

## Sign-In sheet

Sign in as worker

## Handling Chips:

Never leave filled racks on counter

## Cash IN Process:

- ✓ Player walks in to play
- ✓ First must check in with leader Ray, or Don
- ✓ Player proceeds to request chips
- ✓ Player lays down cash to purchase chips
- ✓ Worker enters amount on **Cash In page** and gives player his chips with an empty rack
- ✓ Worker puts cash in drawer

## Current Player at Table needs Chips Process:

- ✓ Player at the table yells out an amount and a type of chip. \$100 Cars.
- ✓ Worker brings the player at the table the 20 chips and a rack receiving the \$100
- ✓ Worker enters the \$100 on **Cash In page**
- ✓ Worker puts cash in drawer

## Rake Process:

- ✓ Every hour on the hour worker must do a rake
- ✓ Worker takes the black empty bucket and proceeds to stand behind dealer of the table
- ✓ The dealer will notice the worker and eventually place a number of chips in the bucket
- ✓ Worker takes the bucket back to counter and counts the chips
- ✓ Worker enters dealer name, table number and amount of chips
- ✓ Worker must have leader Ray or Don count and confirm the amount of chips
- ✓ Leader signs the sheet
- ✓ Worker proceeds to enter the amount on the **Rake page**

## Blackjack Table Process:

- ✓ Blackjack Tables start with one red and one yellow rack for a total of \$600
- ✓ Worker doesn't receive cash for \$600, but must enter the amount
- ✓ Worker enters the \$600 amount on the **Games page**

## Cash OUT Process:

- ✓ Player requests at counter to cash in chips
- ✓ Worker counts chips and requests leader to approve amount
- ✓ Worker leaves chips on counter and proceeds to give the player the counted amount
- ✓ Worker enter amount of return chips on **Chips Out page.**
